The following is an examiner's statement of reasons for allowance:

Applicant argues that the Kirshner drawing does not expressly illustrate the multi-dimensional concept of the subject matter "an under surface of a terminal portion of a lip of said medial section forms an angle with the long axis of the stem means which is greater than ninety degrees." Furthermore applicant argues that the Kirshner drawing is a mere profile, and does not reveal the structure of the undersurface of U.S.P.Q. 2d 1461, a terminal portion of the lip. Ex Darte Levv, 1462 (Bd Pat App & Inter 1990); moreover, examiner to identify wherein each and every facet is incumbent upon the the claimed invention is disclosed in the applied reference." Examiner agrees with applicant's arguments and 131 affidavit concerning Biomet and Kirshner. Thus, the product disclosed the Biomet reference clearly different from the product the Kirshner reference, and since the Bioiet reference is not prior art, teachings of the Biomet reference cannot be included in the Kirshner reference.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
